  .

Why Should I accept you as a Developer?

- ## Abdelrahim Mohamed Alsadiq:

  - o I have a wide knowledge in the field so, I strongly believe that I am much more capable in giving significant contribution that will be surely beneficial for the company's growth point of view. My contribution will surely place company at top five in the market

- ## Ahmed Adel Abo Elwafa:

  - o As, I have just started my career; I can't give you any probe/explanation that strongly encourage you to hire me, but I can promise you that if I get into this job; I will be very loyal and dedicated for my work. I will always try to make good

relationship with customers and clients. I will always take care of my team needs and will never cross the company limit.

- ## Sara Abdelraheem Hamed:
  - o Well, as a fresher I don't have any work experience and handy knowledge. I am finding a platform/company to prove my-self and to explore my knowledge by giving significant efforts and I think, I found the correct place. As, I am hardworking and quick learner; very flexibly and easily I can mold my-self in any direction. Also, I can understand & implement any process very easily to get the desired result.

Why Should I accept your project?

Our project has multiple benefits, first of them that it provides an easy way to manage the bank system and track each agent activity in it, and it also provides easy and friendly UI to make the work simple as much as possible, it also contains full exception handling with over 1500+ handling code to handle each error and provide safety in information
